EDUCATION

Degree	Institute/Board	CGPA/Percentage	Year
Bachelor of Technology	Amrita Vishwa Vidyapeetham , Coimbatore	8.28/10	2020 - 2024
AISSCE	DAV Girls Sr. Sec. School (CBSE), Chennai-86	95.2%	2019 - 2020
AISSE	DAV Girls Sr. Sec. School (CBSE), Chennai-86	93.8%	2017 - 2018
Ba Hindi	Dakshin Bharat Hindi Prachar Sabha		2017

WORK EXPERIENCE

- **HSBC TECHNOLOGY INDIA**
Software Engineer

July 2024 - present
Hyderabad , Telangana

- Developed and maintained full-stack MERN application features, enhancing functionality and user experience.
 - Resolved 200+ high-severity SonarQube (SAST) vulnerabilities, significantly improving application security and code quality.
 - Optimized backend API interactions and frontend data handling, reducing unnecessary network calls and improving application performance.
 - Led production deployments, release validation, and cross-team collaboration, ensuring reliable production releases.
 - Contributed to Spring Boot API development and production readiness for enterprise applications.

• **Schneider Electric**
Intern

Jul 2023 - Sep 2023
Bengaluru, Karnataka

- Developed and debugged controllers using C# within an ASP.NET Core backend project, improving functionality and reliability.
 - Implemented API documentation with Swagger, including custom endpoints and header-based inputs, to streamline API integration.

TECHNICAL SKILLS

–**Languages:** Java, Springboot, React JS, Node JS, Python, HTML, CSS, Javascript, PHP, SQL

–**Tools/Packages:** NumPy, Scikit-learn, Swagger, Git, Jira, SonarQube

PROJECTS

– **RenovAI – Multi-Agent AI Interior Design Assistant**

Jun 2026 – Jun 2026

- * Designed and developed a multi-agent AI interior design assistant using Google’s Agent Development Kit (ADK).
 - * Implemented specialized agents for user preference collection, room analysis, furniture recommendation, and workflow orchestration.
 - * Integrated Gemini 2.5 Flash, Serper Shopping API, and Pydantic schemas to deliver personalized recommendations through tool calling.

– **Developer Portfolio Website**

May 2026 – Jun 2026

- * Developed a responsive React-based portfolio showcasing projects, certifications, publications, and professional experience.
 - * Implemented weather-based UI personalization, customizable themes, project filtering, and responsive UI to enhance user experience.
 - * Integrated a Gemini-powered chatbot that answers recruiter queries based on resume content and deployed the application on Vercel.

– **Quiz Web Application**

Apr 2023 – Jun 2023

- * Developed a web-based quiz management system enabling quiz creation, participation, and result management.
 - * Built responsive frontend interfaces using HTML, CSS, PHP, and MySQL while collaborating on backend integration.
 - * Performed testing and code quality analysis using Jira and SonarQube to improve application reliability.
